Overtime and double time are stated as separate line items from your base rate. The "base" rate constitutes your HOURLY STRAIGHT TIME RATE. The "premium" rates are the overtime and double time premiums. Overtime premiums are 50% of your total straight time rate and double time rates are 100% of your straight time rate. Please note that when you earn a shift differential during overtime or double time, the premium portion of the shift differential will be included in the overtime premium calculation.
